---	--	---

Drop Shipping : All Dealers have the ability to drop ship tires directly to the end user or to a specific track if required. please contact your local dealer for this.

Intermediate Rain Grooving : Both Roger Kraus and ANT tire can Groove Intermediate tread patterns. Please arrange with them early if you would like to have a set of R25 or R35 DRY slicks grooved as Intermediate Rain Tires. The dealers will have their grooving irons present at the events but cannot promise at the track to have a set grooved depending on how busy things get.. Please contact them early enough. as well if you wish to groove a pattern yourself on your tire they will have available for a nominal fee to use their tire grooving iron as well, please contact them to arrange this prior to the event.

See Page 2 of this document for a Guideline of tire models to use on specific Rim sizes and combinations. Feel free to contact any of the distributors above to further discuss Tire related questions.
